01

Aesthetic Medical Product Distribution

FD Group is a well-known domestic cosmetic product distribution enterprise with annual sales of more than 150 million RMB, providing cosmetics, medical apparatus (1-3) and surgical products distribution license, business covering medical beauty of dermatology, noninvasive injection, plastic surgery and postoperative repair, and other fields. The business covers 5 core provinces of China--- Hunan, Hubei, Shandong, Henan, and Jiangxi, radiates nearly 20 provinces across the country.

FILLMED from France

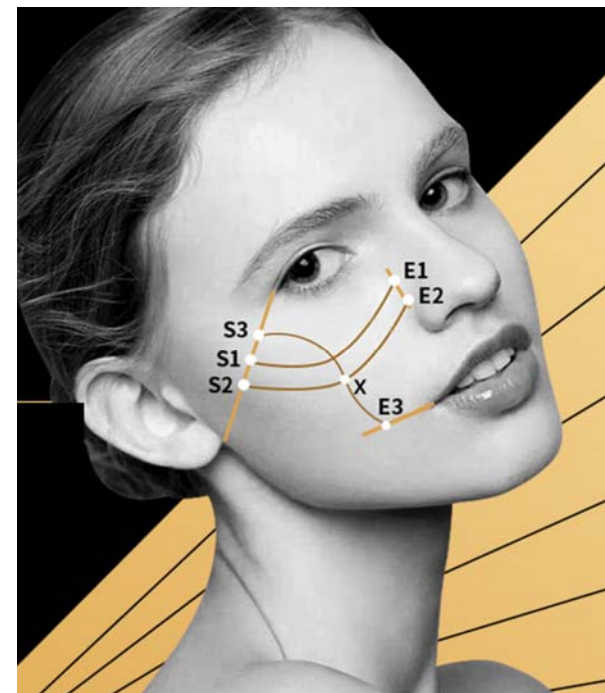

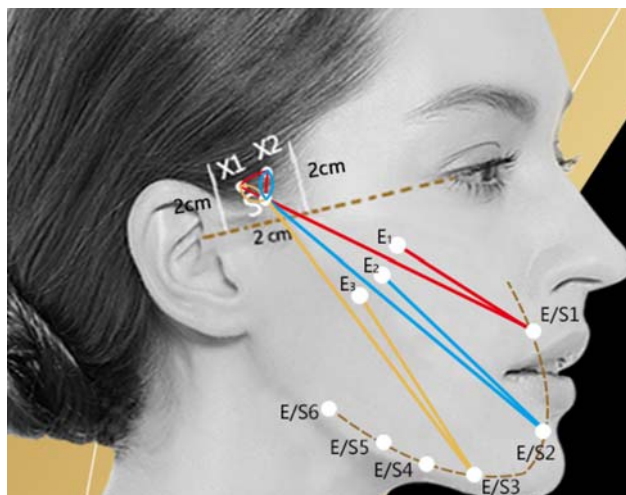

Since 2016, FD Group has cooperated with FILLMED LABORATOIRES, committed to the distribution and after-sales service of its anti-aging beauty products (NCTF135HA, skin infusion medical skin care products) and medical equipment (art filled hyaluronic acid). Now, it has entered more than 200 cities in more than 30 provinces, with close cooperation with more than 5000 professional medical beauty institutions.

Known as the former FILOGAR MEDICAL, FILLMED was founded in 1978 in Paris, France by Dr. Michel Tordjman, a French medical cosmetology expert and cell biologist, who has been devoted to the design, and development of anti-aging products for surgeons, dermatologists and medical beauty practitioners.

SUTRON from Italy

In 2017, FD Group cooperated with Promoitalia, a leading thread manufacturer in Italy, to jointly promote the world's leading new barb thread--SUTRON. SUTRON is widely designed to enhance and reposition facial soft tissue, and is one of the highest quality, performance and durability products in the domestic thread technology field. Over the years, FD Group has cooperated with top domestic experts of the field, jointly held teaching observation and practical operation extension classes, held and sponsored several national conferences on wire technology, dedicated to the cultivation of domestic professional wire technical personnel.

FILLDERM Collagen

In 2020, FD Group introduced the first domestic cattle collagen product - FILLDERM, which is the second collagen product in China's collagen protein filling agent market. FILLDERM can instantly supplement type I and III collagen, and promote tissue remodeling and regeneration. FILLDERM can effectively improve the skin quality, remove black rim of the eyes, thus has become the representative of high-end medical beauty and profitable products. Between 2020 and 2021, FD Group introduced FILLDERM into Aisite, Yamei, Langzi and other large medical chain groups, and held a number of new product launches, sales trainings and injection trainings.

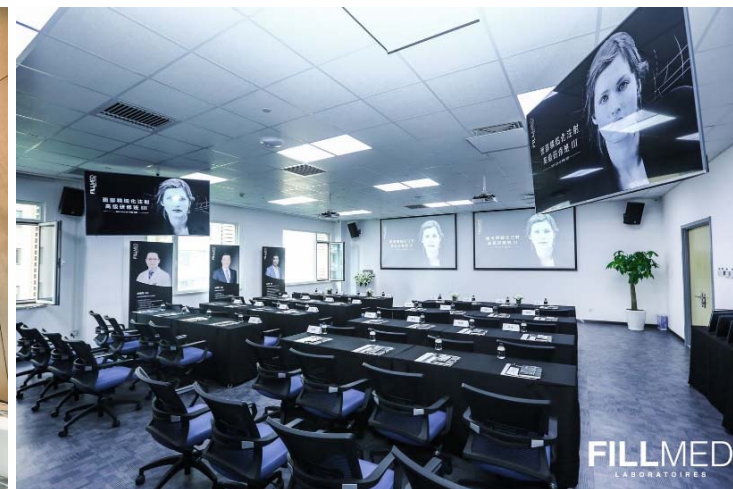

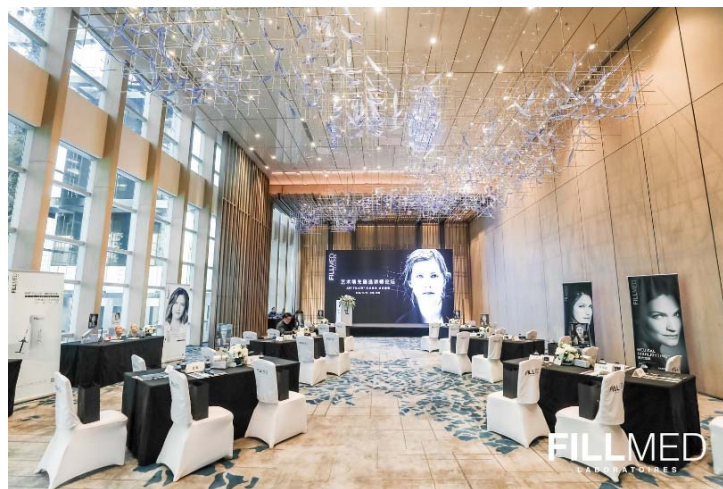

02

Consulting Services, Conference Hosting, Project Cooperation

FD Group is committed to the in-depth cultivation of the Chinese medical beauty industry, not only as a member of multiple business organizations, but also persisting in hosting and organizing all kinds of forums, trainings and conferences of the medical beauty industry, including **the medical beauty innovation contests, beauty therapy master courses, anatomical practice classes, wire technique trainings, consultant trainings, operation& consulting special training camps, etc.**, providing the medical beauty practitioners with a quality platform of study and innovation, making important contributions to the development of the industry.
